

Assessment Team / Document Control

Activity: COVID Secure - Return to Training
 Location / address: Multiple Locations
 Approved by: Daryl Peters
 Approved date: August 2022
 Review date and reason (regular review or straightaway): August 2022

Who might be harmed? (Yes / No)

Athletes / participants: Yes
 Coaches / volunteers: Yes
 Visitor/s: Yes
 Members of the public: Yes

RA Ref: SC 01

If a review or changes are made to the content of this risk assessment, the amended assessment must be forwarded for inclusion website

Generic supportive controls:

CAAT AGM and [Constitution](#) governs and outlining clubs objectives, roles, responsibilities, equal opportunities, child / adult protection and sub committees.

CAAT [Code of Conduct](#) covers principles for vulnerable child / adults, [coaches](#), parents, athletes and juniors to ensure respect, integrity, standards, inclusivity and diversity.

CAAT [Committee](#) reviews, meetings and AGM ensures appropriate compliance and governance of club including risk assessments.

CAAT Coach meetings help continuous development of suitable training plans and safe training sessions leading to successful participation of sporting events. Development of training plans and specific training sessions or event instructions by lead coaches

CAAT [MOJO club membership](#) governs attendees and emergency contacts at training session, incidents or injury shall be reported using [accident reporting form](#).

CAAT Website contains membership, training and competition information and is governed by privacy [terms and conditions](#) and [privacy policy](#)

CAAT Safeguarding is overseen by a safeguarding officer and [key contacts](#), all coaches are [DBS certificated](#) and volunteers either self-certify or have [appropriate level DBS](#).

CAAT has approved [risk assessments](#) (RA) for training and events. Site Specific Risk Assessment (SSRA) covering training venues and a COVID RA covering infection/ hygiene. These shall be referenced in collaboration with other relevant controls measures and instructions to form CAAT's Emergency Action Plan (EAP) and safety arrangements.

CAAT operates within [Public Health England, UKA, EA, BTF](#) and [TE](#) guideline to ensure there is a healthy and safe pathway to training and racing.

CAAT coach to carry club provided first aid kits to all training. First aider coverage reviewed periodically, first aid contents reviewed after use and annually for expiry dates.

Other supportive information or drawings

Approval of the return to sporting activities by CAAT committee, head coach / lead coaches. Committee reviews "R" local rating to see if further action is required. Sporting equipment, locations and events within [GOV.co.uk](#) guidance for [grassroot sport and gym leisure facilities](#) and [outdoor sport and recreation](#)

Training sessions and events should be planned, assessed, with suitable control measures in place and have effective communication to all relevant parties to reduce bacteria and virus transmission risks

Responsible Person (RP) = member, member parent, guardian, or other person helping with travel arrangements of member / supporting a session or event.

It is at the members / members RP own risk to attend if they are moderate/ at higher risk from coronavirus [see NHS guidance](#). NHS advice is available for [people at high risk from coronavirus / shielding](#)

Significant Hazards	Who might be harmed and how	Existing Control Measures	Risk Rating	Additional Action Required & Responsible Person
	Showing symptoms from the Infection of COVID 19 possibly leading to longer term health issues or death	<p>communicate the working instructions for training or event to members and RP.</p> <ul style="list-style-type: none"> July 2020 advice is that social distancing should be followed between people from different households wherever possible. The guide is 2mtrs between people from different households, or 1m plus mitigations (such as face coverings or avoiding face-to-face contact) where 2mtrs is not possible. Where close working can't be avoided best practice is to adopt side to side or back to front and use suitable face covering / eye protection i.e. first aid where parent isn't available / able, and no other medical support is available at the time. 		
Lack of guidance and coordination facilitating training	Athlete, parent, coach, volunteer, member of public, family of the above. Showing symptoms from the Infection of COVID 19 possibly leading to longer term health issues or death	<p>Return to training</p> <ul style="list-style-type: none"> Follow GOV.uk and governing body as guidance. This detail gets updated regularly. RA hazards and controls shall be updated in the SPRA and RA for activity Follow GOV.uk phased return to sport and recreation Defined numbered / familiarised training groups per governing body guidance UKA / BTF Outline training timings / staggering meet up Individual / small group warm up and cool down may be down may be helpful to keep within social distancing guidance Defined training / event areas for each grouping and activities to maintain social distancing Lead coach to communicate clear drop off, check in and pick up arrangements in the session / event training plan to help maintain social distancing and avoid bottle necks with close proximity of members / RP 	Low	<p>Lead coach to review and have current RA for training activities – referenced on CAAT risk assessments Page</p> <p>Coaches to use training guide to help communicate to members/ member RP</p>
Poor Hygiene	Athlete, parent, coach, volunteer, member of public, family of the above. Showing symptoms from the Infection of COVID 19 possibly leading to longer term health issues or death	<p>Encourage good hygiene practices</p> <ul style="list-style-type: none"> Referenced to GOV.uk COVID 19 advice/ guidance Hand washing before and after training thoroughly with soap and water for 20 seconds or use hand sanitiser Cover mouth when sneezing or coughing. Use tissue or inside elbow. Dispose of tissue after use. No spitting while near other athlete or members of the public Avoid touching face, nose and eyes and face coverings if worn Where possible, wash hands or hand sanitise at other suitable intervals i.e. if activity means you have touched communal surfaces, or were your personal hygiene may have been comprised Member or RP once home should remember to wash hands Try to avoid using shared equipment such as mats, bats, balls, bikes, stands, weights etc. If there is shared equipment either leave for 72 hours or have an effective cleaning regime in place 	Med	

Significant Hazards	Who might be harmed and how	Existing Control Measures	Risk Rating	Additional Action Required & Responsible Person
Venue or location not assessed for risk	Athlete, parent, coach, volunteer, member of public, family of the above. Showing symptoms from the Infection of COVID 19 possibly leading to longer term health issues or death	Training and event locations <ul style="list-style-type: none"> • Shall have their own SSRA for emergency arrangements and also follow the COVID secure risk assessment controls measures • When exercising in the wider countryside remember to follow the countryside code and act responsibly. • When exercising in public spaces follow local authority guidance and highway code for footpaths • Anti-social behaviours (ABS) should be reported to non-emergency 101 and the public spaces protection PSPO order guidance is available to understand what is covered in the act. • 	Low	
Use of equipment that could transmit infection	Athlete, parent, coach, volunteer, member of public, family of the above. Showing symptoms from the Infection of COVID 19 possibly leading to longer term health issues or death	Use of equipment and premises <ul style="list-style-type: none"> • Selection of equipment shall be done with all parties who may handle it in mind. This is to avoid unnecessary transmission risks and handling issues. • Best practice is to use own equipment where possible, avoid handling other athletes / coaches' equipment, consideration with placement of equipment to avoid unnecessary contact, movement, transportation and storage • Where any equipment is to be used or involved in an activity, the lead coach is required to tailor the session to ensure appropriate frequent /timely cleaning and disinfecting takes place within the Public Health England (PHE) advice • If shared equipment cannot be cleaned, consider withholding for 72 hours or restricting access. • For any premises suitable frequent and /timely cleaning shall take place with 1) higher touch objects or surfaces such as door handles, light switches, counters etc and 2) where there is higher frequently of people using communal areas such as reception areas, corridors, stairs, toilets etc • For hired premises and grounds where the club is organising the training session or an event the club shall have an effective record of members or RP accessing them • All parties are responsible to maintain good hygiene practices and avoid unnecessary contacts with objects or surfaces and report to the premise responsible person /key contact any concerns or issues • Cleaning* shall be done with using suitable cleaning products, methods and personal to promote good hygiene and help prevent the transmission risks of bacteria, viruses and occupational injuries 	Low	

Significant Hazards	Who might be harmed and how	Existing Control Measures	Risk Rating	Additional Action Required & Responsible Person
No or inadequate PPE /RPE	Athlete, parent, coach, volunteer, member of public, family of the above. Showing symptoms from the Infection of COVID 19 possibly leading to longer term health issues or death	<p>PPE or RPE / face coverings</p> <ul style="list-style-type: none"> Where social distancing isn't possible then suitable PPE or face coverings should be worn to help reduce possible transmission risks <u>Gloves</u> – shall be worn where suitable for first aid requirements <u>Visor / eye protection wear</u> – shall be worn where suitable for first aid requirements <u>Face mask</u> –a suitable reusable or disposable covering / mask shall be worn over nose and mouth to help reduce particle transmission and user shall apply the below guidance <ul style="list-style-type: none"> Wash your hands thoroughly with soap and water for 20 seconds or use hand sanitiser before putting a face covering on, and after removing it When wearing a face covering, avoid touching your face or face covering, as you could contaminate them with germs from your hands Change your face covering if it becomes damp or if you've touched it Continue to wash your hands at suitable intervals If the material is washable, wash in line with Manufacturer's instructions. If it's not washable, dispose of it carefully in your usual waste 	Low	All coaches and first aiders to review their first aid kit based on club checklist
Inadequate welfare arrangements	Athlete, parent, coach, volunteer, member of public, family of the above. Showing symptoms from the Infection of COVID 19 possibly leading to longer term health issues or death	<p>Welfare</p> <ul style="list-style-type: none"> Member / RP to maintain good hygiene throughout the day and session or during event. Members and RP to use own welfare arrangements where possible prior to session or event to reduce requirements on other premises If catering facilities are open at the venue or near the event for takeaway items Member and RP to respect social distancing whilst queuing for food and drink. Do not share food items, cups, plates or eating utensils with anyone else. If member / RP uses any public or private facilities, they shall be at own risk and it is advised to assess they are comfortable with the arrangements in place for sanitisation and cleaning. Only use facilities which are COVID secure for close contact services. Only use own water bottles and cups and void contamination /transmission issues by having clear arrangement for refreshments with instructions for members and RP 	Med	
Infection transmission while traveling to / from event or training	Athlete, parent, coach, volunteer, member of public, family of the above. Showing	<p>Travel</p> <ul style="list-style-type: none"> Follow GOV.co.uk guidance for travel safety during the coronavirus outbreak Help keep yourself, other passengers and other transport users safe, by taking the following precautions: <ul style="list-style-type: none"> Limit the number of people or households that you come into contact with. 	Med	

Significant Hazards	Who might be harmed and how	Existing Control Measures	Risk Rating	Additional Action Required & Responsible Person
	symptoms from the Infection of COVID 19 possibly leading to longer term health issues or death	<ul style="list-style-type: none"> o Travel side by side or behind other people, rather than facing them, where seating arrangements allow o Minimise the time spent close to other people, where possible avoid loud talking, shouting or singing o Wear a face covering as appropriate in same transport o Try staying in the same social bubble / grouping o Dispose of waste safely, including items such as used disposable face coverings o Follow coaches' instructions regarding access to locations, parking, member check in and out arrangements 		
Low mood or poor mental health	Athlete, parent, coach, volunteer, member of public, family of the above. Showing symptoms from the Infection of COVID 19 possibly leading to longer term health issues or death	<p>Mental Health</p> <ul style="list-style-type: none"> • Coaches to be aware of the guidance for public on mental and wellbeing • NHS has volunteer responder for those who may need a chat • Club has a mental health ambassador for members or RP • NHS has some good supportive on health, mental health and wellbeing 	Low	
Poor supervision	Athlete, parent, coach, volunteer, member of public, family of the above. Showing symptoms from the Infection of COVID 19 possibly leading to longer term health issues or death	<p>Supervision</p> <ul style="list-style-type: none"> • Lead coach to link with other coaches in proximity or shared areas • Lead coach has overall responsibility for the training session or event • Lead coach to enact stopping the session / event if they feel it is being comprised on safety or health grounds • Lead coach to check the arrangements with any member who needs to leave a session because they are unwell, ensuring they are safe, have a suitable RP to support them and the RP understand the background to the member feeling unwell. • Member or members RP to report back to coach on any health issues which may affect the groups they have been with or they have travelled with. 	Low	
No or inadequate first aid provisions	Athlete, parent, coach, volunteer, member of	<p>First Aid</p> <ul style="list-style-type: none"> • Coach to carry our dynamic risk assessment and take most appropriate action to help member first aid requirements 	Low	Lead Coach to review first aider coverage and kit available for training or event. COVID first aid kit updates to include additional suitable face covering and eye protection

Significant Hazards	Who might be harmed and how	Existing Control Measures	Risk Rating	Additional Action Required & Responsible Person
	public, family of the above. Showing symptoms from the Infection of COVID 19 possibly leading to longer term health issues or death	<ul style="list-style-type: none"> Minor injuries where possible should be supported by member of same household or RP of junior Maintain social distancing where possible and use suitable PPE, RPE / face covering If less than 2 meters and avoid face to face where possible Maintain good hygiene practices before intervention / care and afterwards Dispose as appropriate any waste If further medical support is required use local medical services near location or NHS 111 or 999 as appropriate Report incident using the accident reporting form. 		Committee to review first aid kit checklist
